

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jerry Caggiano
DOCKET NO.: 05-25906.001-R-1
PARCEL NO.: 05-27-112-006-0000

The parties of record before the Property Tax Appeal Board are Jerry Caggiano, the appellant, and the Cook County Board of Review.

The subject property consists of an 82-year-old, two-story, single-family dwelling of frame construction containing 3,458 square feet of living area and situated on a 15,900 square foot parcel. Features of the home include three and one-half bathrooms, a partial-finished basement, air-conditioning and three fireplaces. The subject is located in New Tier Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located on the same street and within one block of the subject. The improvements range in size from 2,981 to 3,576 square feet of living area and range in age from 74 to 88 years. The comparables contain from one and one-half to three and one-half bathrooms, a full-unfinished basement, a fireplace and a two-car garage. One comparable has air-conditioning. The improvement assessments range from \$28.50 to \$34.03 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 44,520
IMPR.: \$ 125,480
TOTAL: \$ 170,000

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$178,079. The subject's improvement assessment is \$133,559 or \$38.62 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,932 to 4,178 square feet of living area and range in age from 75 to 80 years. The comparables contain two and one-half or three and one-half bathrooms, a full-finished or unfinished basement, one or three fireplaces and a two-car garage. One comparable has air-conditioning. The improvement assessments range from \$39.88 to \$43.65 per square foot of living area. The board's evidence disclosed that the subject sold in November 2003 for a price of \$1,845,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables one, two and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design and age. In addition, they are located on the same street and within one block of the subject and have improvement assessments ranging from \$28.50 to \$34.03 per square foot of living area. The subject's per square foot improvement assessment of \$38.62 falls above the range established by these properties. The Board also finds the appellant's comparables inferior in amenities and superior overall in construction as compared to the subject. The Board further finds the remaining comparables less similar to the subject in improvement size, construction and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject property was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
